

A copy of this chart must accompany all roof blind orders.

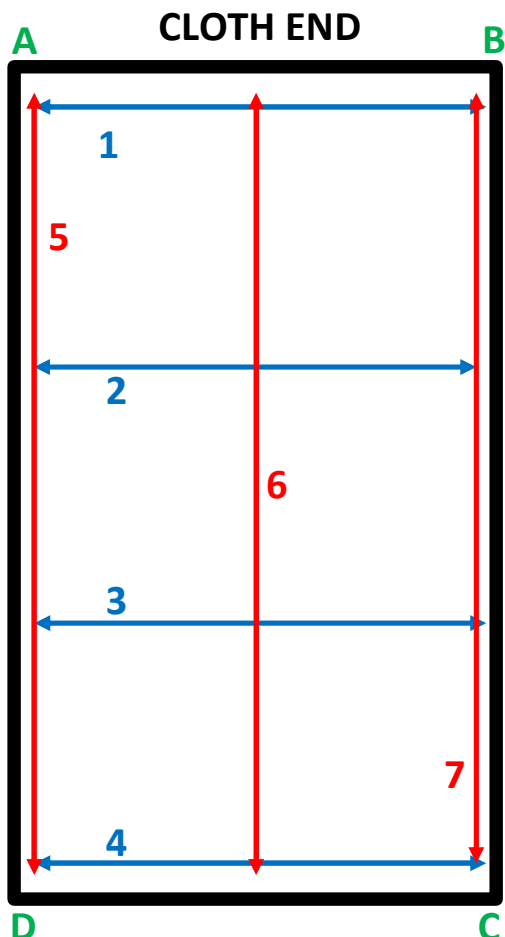

There must be one page per roof blind, to allow SHY to CAD any blind with size variations outside the following parameters: -

- Width 5mm or more
- Draw/drop 8mm or more
- Cross diagonals 10mm or more

Or any combination of dimensions that give cause for concern that the blind won't fit if SHY standard deductions are used. (Any format is fine as long it is easily legible)
